## *TOPICS IN FINANCE*

---

Instructor: David Schoenherr

### KEY TOPICS

---

#### Financial policy and investment

- What are a company's possible sources of funds?
- What is a suitable financial policy for a given company?
- How does financial policy affect a company's operations?
- How to make investment decisions?
- How to think about financial intermediation and sustainable investment

#### Politics, networks, and finance

- Examine how financial policy and performance are affected by the involvement of firms in political, social, and professional networks
- What is the value of political, social, and professional networks?
- How do networks and connections generate firm value?
- What are the implications to society?

#### Public policy and firms

- How does regulation affect firms' operations?
- How do firms respond to regulation?
- How are policies designed?
